

The Favor Project

Practical support for important milestones, transitions, and next steps.

WHAT IS THE FAVOR PROJECT?

Focused community support with a clear purpose.

The Favor Project is a community giving program of Favor Forward Foundation that provides specific, practical support through short-term campaigns. Each Favor Project focuses on a defined need, serves an identified group, and provides tangible items or services that can help participants move forward.

Rather than operating as one open-ended assistance program, The Favor Project offers individual campaigns throughout the year. Each campaign has its own purpose, timeframe, eligibility requirements, available resources, and distribution plan.

HOW PARTICIPANTS CONNECT

Participants may be connected to an open Favor Project through **educational partnerships**, **nonprofit referral networks**, or an **open application** offered during a specific campaign window. Schools and counselors may identify students with documented needs, community organizations may refer candidates under shared criteria, and eligible individuals may apply directly when applications are open.

WHAT MAKES THE PROGRAM DIFFERENT

Each Favor Project is designed around a specific need and measurable outcome. Campaigns use clear eligibility criteria, direct and dignified distribution, quality standards for donated items, and defined start and end dates. Publicity is not required in order to receive assistance.
